**DOES NOT COMPLY WITH THE
SEQUENCE RULES. See reasons
below.**

The nucleotide/ and/or amino acid sequence disclosure contained in this application does not comply with the requirements for such a disclosure as set forth in 37 C.F. R. 1.821-1.825 for the following reasons:

1. Claims 15-22 are drawn to nucleic acid sequences that contain nucleotide sequences that are not found in the CRF or paper/CD copy.
2. Where the description or claims of a patent application discuss a sequence that is set forth in the "Sequence Listing" in accordance with 37 C.F.R. 1.821 (c), a reference must be made to the sequence by use of the sequence identifier, preceded by "SEQ ID NO:" in the text of the description or claims, even if the sequence is also embedded in the text of the description or claims of the patent application. 37 C.F.R. 1.821 (d).

For example, see claims 1, 3, 8, 11, 14, 15, 16, 18, 21, and 22 drawn to N-terminally truncated galectin-3. There is no "SEQ ID NO:" associated with N-terminally truncated galectin-3.
